## Summary

Experienced in web development, UI/UX design, and front-end technologies, with practical skills in tools like Figma and Photoshop. I specialize in creating responsive user interfaces and integrating back-end systems using PHP, MySQL, NestJS, and PostgreSQL. I communicate effectively in English and have a working knowledge of programming languages including Python, C++, JavaScript, and C#. I value continuous improvement, learn steadily through hands-on experience, and am eager to deepen my knowledge of modern frameworks like React and Tailwind CSS.

## Skills

**Programming**: Python, C++, JavaScript, C#, MySQL, MongoDB, Node.js, Express.js, React.js, PHP, NestJS, PostgreSQL GDScript

**Design/UI/UX**: HTML, CSS, Bootstrap, Tailwind, SASS, WordPress, Wireframing/Prototyping (Figma), Photoshop, Illustrator, Canva

**AI Tools**: Claude, ChatGPT, Deepseek, Kilo Code, Adapts to and prompts AI for specific objectives meticulously and efficiently.

**Software**: VS Code, Visual Studio, XAMPP, MS Word, MS PowerPoint

**API Testing Platform**: Postman and Thunder Client

**Languages**: English, Filipino

## Experience

**PanAsiatic Solutions. | Bacolod City, Philippines** *February 2025 – May 2025*

- Enhanced and prepared client profile images in Adobe Photoshop. Maintained organized Excel records for data integrity and tracking.
- Played an active role in operational logistics by coordinating and executing the safe transfer of essential computer components between departments, ensuring efficient setup and deployment as directed by IT supervisors.
- Conducted in-depth diagnostics and configuration of laptops, thoroughly evaluating system performance and hardware specifications to determine suitability for continued use. Collaborated closely with IT facilitators to implement a systematic sorting process, minimizing risk and optimizing the organization’s hardware lifecycle management.
- Observed real-time IT procedures including data privacy protocols, preventive maintenance routines, and user support services, gaining valuable insights into professional IT service delivery.
- Displayed a strong work ethic, adaptability, and initiative by eagerly taking on new challenges, supporting senior staff in both technical and administrative tasks, and contributing positively to team morale and productivity.

## Projects

**Enhancing Driver Accountability and Community Security: Driver’s Identification System** | *May 2024 – November 2024*
**Project Manager, Front-end, and Designer** | **https://github.com/Adz-Nelo/Enhancing-Driver-ID-System**

ID system for registered drivers of Barangay Estefania, improving accountability and community security. Prints ID cards with dynamically generated QR codes for fast, reliable verification at checkpoints.

- Designed the user interface and experience (UI/UX) using Figma, ensuring a visually appealing and user-friendly layout.
- Implemented front-end integration with the back-end using PHP and MySQL, focusing on dynamic rendering of driver records, feedback, and status in association category of super admin only.
- Developed responsive layouts and smooth UI animations using HTML, CSS, and Photoshop, including enhancements to the system’s logo and branding.
- Standardized the driver's ID layout by applying a color-coded scheme based on vehicle category and embedded custom fonts for better readability and aesthetics.
- Led and collaborated with teammates and mentors to develop and implement the overall strategy for our final capstone project.

## Education

**Degree Holder**
Bachelor of Science in Information Systems **CHMSU-FT** | **Bacolod City, Philippines** *September 2021 – June 2025*

## Seminars Attended

- Google Developer Groups Bacolod 2023 – 2026
- Google Developer Groups DevFest 2023–2024
- Mobile, Design & Web (Google Devfest 2024)
- Google Developer Groups Bacolod (Build with AI) 2026
